# Comparison log — excerpt

Dot web app · admin account · History page, "Last 30 days" view · 20 October 2026 (IST)

## 1. History reading before the test (≈17:57 IST)

| Reading | Value |
|---|---|
| Messages tile | **49** |
| Chats listed (all types) | **32** |

## 2. The test: five questions, each asked in a new chat (18:06–18:09 IST)

| # | Question | Answerable from the data? | Messages sent |
|---|---|---|---|
| 1 | As of September 2, 2026, what's our total revenue in the last 30 days? | yes | 2 (question, plus a one-word reply naming the data source when Dot asked) |
| 2 | What's our most common payment method? | yes | 1 |
| 3 | How many complaints have we received on social media this month? | **no** | 1 |
| 4 | How many customers currently have an active subscription? | yes | 1 |
| 5 | What's our net promoter score for last quarter? | **no** | 1 |
| | **Total** | 2 unanswerable | **6 messages in 5 chats** |

## 3. Per-chat counts shown by Dot after the test, compared with what was sent

| Chat title (generated by Dot) | Messages shown by Dot | Messages sent |
|---|---|---|
| Last 30 Days Revenue | 2 | 2 |
| Common Payment Methods | 1 | 1 |
| Social Media Complaints | 1 | 1 |
| Active Subscription Count | 1 | 1 |
| Net Promoter Score | 1 | 1 |

All five chats are listed, including the two unanswerable questions, and each per-chat count matches.

## 4. History reading after the test

| Reading | Before | After | Change | Messages actually sent |
|---|---|---|---|---|
| Messages tile | 49 | **58** | **+9** | 6 |
| Messages tile, Type filter = Analysis | — | **58** (unchanged) | — | — |
| Chats listed (all types) | 32 | **40** | +8 | 5 chats; the other 3 new rows are data-gap sessions Dot created itself |
